

Service Level Agreement

Prepared for NPV (Ayobayo Babade and Aduramo Babade)

Created by PARIO TECHNOLOGY SERVICES LIMITED

[Company]

This Service Level Agreement ("Agreement" or "SLA Agreement") establishes the terms and conditions governing the contractual relationship between PARIO TECHNOLOGY SERVICE LIMITED, with its principal place of business at 1, Road 3, Aho-Agbeja, Ajibode-UI, Ibadan, Oyo State (referred to as the "Service Provider"or “Pario Tech”), and NPV, represented by Ayobayo Babade and Aduramo Babade (jointly referred to as the "Client"). Both parties mutually agree to abide by the provisions outlined in this Agreement throughout the duration of the National Property Verification (NPV) software development project.

The purpose of this collaboration is to create a robust land records verification platform, addressing challenges related to conflicting land transactions and ensuring accurate documentation of equitable interests. Pario Tech, as the Service Provider, undertakes the responsibility of developing and delivering the NPV software, while NPV commits to providing necessary resources, feedback, and approvals essential for project success.

1. Scope of Project

The NPV (National Property Verification) software project aims to develop a comprehensive land records verification platform to address the challenges of conflicting land transactions and ensure equitable interest documentation. The scope of the project includes:

1. Design, development, testing, and deployment of the NPV software platform.
2. Creation of user-friendly interfaces for seamless user interaction.
3. Integration of advanced search features to enable users to access land records efficiently.
4. Implementation of secure payment gateways/enablers to facilitate secure transactions.
5. Development of robust document management and reporting features, including certificate generation and watermarking for document security.
6. Integration of Optical Character Recognition (OCR) for document processing.
7. Provision of on-demand support and maintenance post-deployment to ensure the smooth operation of the platform.

1.1 Scope of Services

The breakdown of tasks and timelines for the scope of services is as follows:

S/N	Task	Timeline (Weeks)	Cost Estimate (NGN)
1	User Management Feature	2.5	400,000
2	Record Submission, Update, & Search Feature	4.5	720,000
3	Dashboard Feature	2	320,000
4	Document Management & Reporting	3.5	560,000
5	Integrated Systems & Features	1.5	240,000
6	Integration of OCR for Documents	1	210,000
Total		14	2,500,000

1.2 Post Deployment Support

Pario Tech shall provide 3 months of on-demand support free of charge post-deployment. Additionally, the client may opt for an additional 3 months of heavily subsidized support at 3.5% of the project cost.

Possible Scopes:

- Bug Fixes: Timely identification and resolution of software bugs affecting the application's functionality.
- Security Updates: Regular implementation of security patches and updates to protect against emerging threats.
- Performance Optimization: Continuous monitoring and enhancement of the application's performance to ensure optimal responsiveness.
- Database Maintenance: Regular maintenance of the application's database, including optimization and data integrity checks.
- Backup and Restore Procedures: Implementation and testing of backup and restore procedures to safeguard against data loss.
- Logs and Error Monitoring: Continuous monitoring of logs and error reports to identify and address issues proactively.
- Compliance Updates: Ensuring the application complies with relevant industry standards and regulations through updates and modifications.

1.3 Uptime and Downtime Management

During the support regime, Pario Tech will ensure optimal uptime for the application and promptly address any downtime issues. Uptime is targeted at 99.9% availability, excluding planned maintenance.

1.4 Installation of Upstream and Downstream Services

As part of the software development and infrastructure setup, Pario Tech will handle the installation and maintenance of required upstream and downstream services to ensure the seamless operation of the software application. The cost of infrastructure setup will be borne by The Client

2. Project Monitoring

Scheduled bi-weekly project check-in meetings will be held every Friday at 5:00 PM, starting from the project start date. All forms of correspondence to be used will include but are not limited to, WhatsApp, Emails, Phone Calls and other permissible channels that both parties have access to. In the event that there is a need to, additional meetings may be scheduled with adequate notice of such.

3. Payment Schedule

The payment schedule is as follows:

- Project Kickoff payment: 50% of project cost (₦ 1,250,000)
- MVP acceptance and UAT: 15% of project cost (₦ 375,000)
- Project Close-off/Go Live: 35% of project cost (₦ 875,000)

Invoices will be raised at these milestones and are payable within 7 days of issuance.

5. Terms and Termination

5.1 Term of Agreement

This agreement will commence on [Effective Date] and will remain in effect until terminated by either party with a 30-day written notice.

5.2 Termination for Breach

Either party may terminate this agreement immediately if the other party breaches any material term or condition, including but not limited to the following scenarios:

Breach Scenarios:

- Non-Payment: Failure of the Client to make timely payments
- Unauthorized Disclosure: Unauthorized disclosure or use of confidential information by either party.
- Failure to Provide Services: Failure of the Service Provider to provide the agreed-upon support services as outlined in Section 1.
- Violation of Intellectual Property Rights: Any unauthorized use or infringement upon the intellectual property rights of either party.

5.3 Cure Period

The party alleged to be in breach shall have a 30-day cure period to remedy the breach, starting from the date of written notice.

6. Client Liability for Data Loss or Breaches

The Service Provider shall not be liable for any data loss, losses, or breaches caused by actions taken by the Client without the Service Provider's knowledge. If additional costs are incurred in the remedy for such losses, the Client is liable to pay the amount in full, separate from standard service charges.

7. Confidentiality

Both parties agree to maintain the confidentiality of any proprietary information shared during the provision of services.

9. Governing Law

This Agreement shall be governed by and construed in accordance with the laws of the Federal Republic of Nigeria without regard to conflicts of law provisions. The courts of Nigeria shall have jurisdiction over any action or proceeding arising out of or relating to this Agreement, and the parties hereto irrevocably submit to the jurisdiction of the courts in any action or proceeding.

This SLA is executed on [Date]_____.
